"Five Inch is a Cinch"!

After registering for this day, please send an email to fordinge@gmail.com as requested on the Home page of the website.

Now, about the STBA day... Join us for all or part of the day. We will gather at 9:00 a.m., enjoy time together as a large group, move into small groups and provide time for socializing and individual sewing.

Our theme for the day will focus on using 5 inch scraps. In the afternoon we welcome Pat Speth, from St. Paul, Minnesota. Pat will share "*How Nickel Quilts Are Created*". Her trunk show is sure to get quilters enthused about using 5" squares of fabric and many of the ideas shared can also be adapted for using other precuts; such as 2½ inch strips and layer cakes. She will share a great assortment of quilts from her collection and will focus on the blocks in the quilts and the simple components from which they are made. Quilts for all skill levels will be shown. One of Pat's favourite things to do is to design a quilt using simple piecing and have the result look like a much more intricate quilt!

Pat has authored a number of books on this topic, e.g. "Big Book of Nickel Quilts" or "Nickel Quilts and Borders", etc.

Come and join us for a day of fun, learning and socializing.
